COMPANY PROFILE

Polar Vista International Co., Ltd. started in Hong Kong back in late 2005 and we are located in Bangladesh, China, Taiwan and Turkey. As a member of the LEED (U.S. Green Building Council) we are here to serve your needs, including but not limited to; full range of high quality supply products, LEED project certificate consultancy, energy efficient audit, upgrade strategies, supply, installation, commissioning and turn-key project. More importantly we are here as a LEED supply chain. We aim to satisfy all your needs in pursuing green industrial and commercial projects.

We provide equipment and machinery for factory needs from the floor to the roof, from planning, design, construction and commissioning. Our specialties are in providing energy solution systems and lighting systems and we also provide an automation and digital system as we aim for a greener future.

We are proud and thankful for all the people who supported our way to our 10th anniversary and we will keep doing our best for all of your needs.
